EXPLANATORY NOTES TO THE MAINTENANCE RECOMMENDATION

Advice	Prescription
CHANGE Maintenance required according to schedule.	F Maintenance schedule according to Manufacturer.
CHECK Maintenance check needed according to schedule.	W Maintenance schedule according to Wesp.
? Maintenance history unknown	12/10.000 12 months or 10,000 km.
OK No maintenance required according to s	24/- 24 months, no mileage rule
Mth since¹	
The number of months since you last replaced this part. If you have never replaced it, we will count the number of months we know for sure it has not been replaced. We will then take the first date that the car was at your place.	
KM since²	
The number of miles driven since this part was last replaced. If you have never replaced it, then count the number of miles driven since the first vehicle visit.	
Replace	
The number of times you have replaced the part already	

N.B. The recommendations are a combination of the factory maintenance schedule, the WESP calculations and finally the maintenance history of each car at the garage. The WESP service advice is based on normal conditions and industry averages. Always refer to the service instruction manual for the final valid factory requirements.
